Pre Surgery Medical Evaluation Request

To: Dr. _____

Re: _____

On _____, your patient noted above, will be having eye surgery by Dr. Anh Nguyen. Part of the preparation for that surgery is a brief medical health evaluation that is required from the surgical centers, and will be reviewed by the hospital and anesthesiologist.

As you may know, Dr. Nguyen's surgery requires only anesthetic drops and mild (if any) intravenous sedation. Moreover, anesthetic injections around the eye are no longer required. Dr. Nguyen does not cut any vascular tissue during surgery, thus it is unnecessary for the patient to cease anticoagulant, or aspirin, medications. The following tests are required (from the hospitals) as part of the evaluation.

_____ **BLOOD (CBC, PT/PTT, BUN, Creatinine, Glucose, K+) (must be done within 3m)**

_____ **EKG (55+ years, must be done within 1yr)**

_____ **History and Physical (must be done within 1 month)**

When the medical form and required test results are finalized, please FAX all documents to:

Dr. Anh Nguyen's office (703) 992-8158.

In addition to faxing results to our office please FAX results to patients designated surgery center:

Inova Woodburn Surgery Center (571) 472-6508.

Thank you in advance for your cooperation. Should you or your staff have any questions or concerns regarding your patient's medical condition, do not hesitate to call us at (703) 534-4393.

Most Appreciatively
